1852 | MAR
INE
QUALITY

1852 MARINE QUALITY

The inspiration for the brand comes from the maritime environment.

A nautical mile is a unit of measurement of distance used at sea, in the air and in meteorology.

An international nautical mile is exactly 1852 meters.

1852 MARINE QUALITY

If you sail for one hour at a speed of one knot, you have sailed one nautical mile.

1852 is our own private label brand and a guarantee for quality products at the right price "value for money".
Produced especially for Palby Marine in Denmark, Nautec in Sweden and Flak in Norway.

We have over 1000 products from 1852 in our range.

The products range widely - from wetsuits to polishing machines, rubber boots, binoculars, oil, melamine tableware, water sports etc.

1852 CR50 COMPRESSOR REFRIGERATOR

Compressor refrigerator, 12/24V DC - 5/2.5 Amp - 60W

- Noise level: <45dB
- Right- or left-handed door
- With LG compressor
- Remove freezer for larger cold room
- Storage volume: approx. 48 litres, including 9.5 liter freezer compartment
- Weight: 17 kg
- Dimensions (W x H x D): 380 x 534 x 500 mm

Refrigerator frame for CR50
1283259

1852 CR65 COMPRESSOR REFRIGERATOR

Compressor refrigerator, 12/24V DC - 5/2.5 Amp - 60W

- Noise level: <45dB
- Right- or left-handed door
- With LG compressor
- Remove freezer for larger cold room
- Storage volume: approx. 65 litres, including 18 liter freezer compartment
- Weight: 19 kg
- Dimensions (W x H x D): 470 x 630 x 431 mm

Refrigerator frame for CR65
1283262

Refrigerator door panel optional

Stainless steel 1283261-1

Grey 1283261-2

Wood look 1283261-3

1852 COMPRESSOR ICE CUBE MACHINE ICE16

Never go down on ice cubes for your drinks!
 Fill the tank with water and select on the LED panel which size ice cube you want.
 In just 7 minutes, the machine produces your ice cubes.

- 700 g ice cube tray
- The ice machine has a handle so it is easy to move around.
- 12V/24V/240V
- 1.2 / 0.5 Amp
- Noise level: <45dB
- Dimensions (L x W x H): 355 x 238 x 351 mm
- Weight 9.2 kg
- Universal power supply for cigar plugs with 2.5 meter cable

1283265

Easy emptying

With handle - easy to move

700 g ice cube bucket & ice scoop

Makes oblong ice cubes

ICEMASTER® PRO COOLER/ICE BOXES

The IceMaster® Pro combines performance, strength and durability and can keep ice frozen for more than 6 days.

- Ice cream can be kept frozen for more than 6 days (tested at 25°C)
- 50 mm thick CFC-free PU foam insulation
- Food-approved silicone rubber ring in lid
- FDA food approved PP inside
- 2-way attachment points for safe transport
- Black stainless steel brackets/locks
- Double drain for emptying (fast/slow)
- Heavy duty handle & bottle opener
- Tape measure punched on the lid

2-way attachment points for safe transport

Black stainless steel fittings/locks

Heavy duty handle & bottle opener

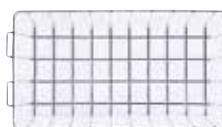

Double drain for emptying (fast/slow)

Tape measure punched on the lid

Food-approved silicone rubber ring in lid

Accessories: basket, freezer element & cutting board/room

1852 COMPRESSOR COOLER BOX 55 LITRES

1852 compressor cooler box is perfect for the boat, the car, the caravan
The refrigerator with double zone

- LCD display/ control panel
- USB outlet for mobile phone charging, lamps, tablets, etc.
- 3-step battery protection
- Both for 12/24 Vdc or 110-240 Volt
- Compressor cooling or freezing down to -20°C
- With LG compressor
- Universal power supply for cigar plugs with 2.5 meter cable

55 liters w/LED light, which lights up when the lid is opened
Equipped with strong carrying handles and a display that shows the temperature.

Lid can be opened to both sides

Digital panel that allows you to simple and economical control of the cooling box. Can be controlled via app.

2-part Cool/freeze or Cool/cool - Freeze/freeze

Weight 17 kg

Size 647 x 400 x 571 mm (+ 25 mm on each side)

Consumption 5 (12V)/2.5 (24V) Amp - 0.25 Kw.h/24T

Average power consumption: 60W

1283254

Highly efficient cooling
range from +10°C to -20°C

1852 COMPRESSOR COOLER BOX 95 LITRES

1852 compressor cooler box is perfect for the boat, car, caravan etc.
The cooling box is a 2-part fridge/freezer

- LCD display/ control panel
- USB outlet for mobile phone charging, lamps, tablets, etc.
- 3-step battery protection
- Both for 12/24 Vdc or 110-240 Volt
- Compressor cooling or freezing down to -20°C
- With LG compressor
- Universal power supply for cigar plugs with 2.5 meter cable

95 liters w/LED light, which turns on when the lid is opened
Equipped with strong carrying handles and a display that shows the temperature.

Lid can be opened to both sides

Digital panel that allows you to simple and economical management of the cold box.

Can be controlled via app.

2-part Cool/freeze or Cool/cool - Freeze/freeze

Weight 24 kg

Size 826 x 528 x 465 mm (+ 25 mm on each side)

Consumption 6 (12V)/3 (24V) Amp - 0.3 Kw.h/24T

1283255

Control cooler box via
The Alpicool app

Highly efficient cooling
range from +10°C to -20°C

Light when lid is opened

Bottom plug

Digital panel / Handle plug

1852 COMPRESSOR COOLER BOX 30, 50 LITRES

1852 compressor coolers are perfect for trips in the boat, car, caravan etc. Both models have two wheels and an adjustable handle.

- LCD display/ control panel
- USB outlet for mobile phone charging, lamps, tablets, etc.
- 3-step battery protection
- Both for 12/24 Vdc or 110-240 Volt
- Compressor cooling or freezing down to -20°C
- With LG compressor 
- Universal power supply for cigar plugs with 2.5 meter cable

Control cooler box via The Alpicool app

30 liters

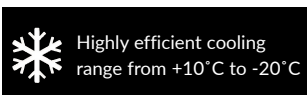

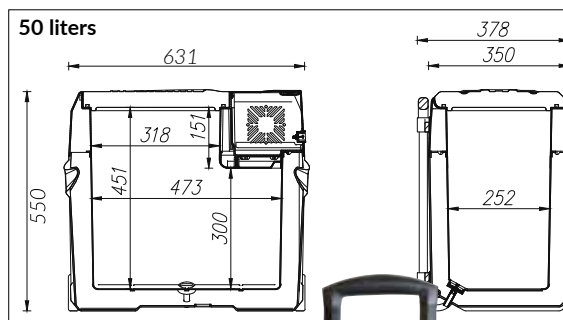

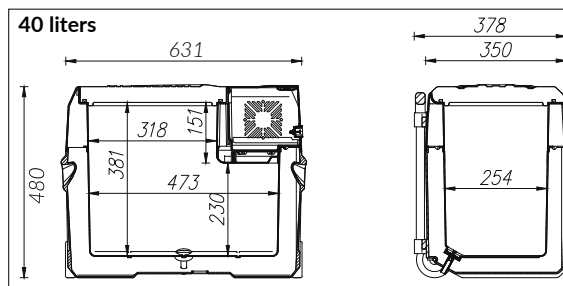

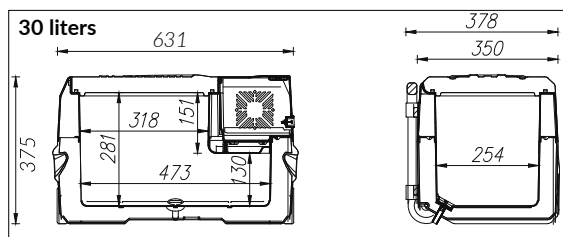

Weight 11.6 kg

VHF motor boat antenna with fiberglass whip, 105 cm, 7 meter cables, 2 connectors UHF & FME
• LNB frequency range 156/162 MHz
• Gain 3dB
1114005

velex MARINE BLUETOOTH KIT WITH SPEAKER AND CONTROL

A perfect music system for small boats from VELEX.
2 pcs. 6.5" marine speakers included.
Class A/B amplifier with 180W max output.

- Bluetooth
 - 4 channels
 - 4 x 45W 4 Ohm amplifier
 - Control panel IP 67 with light and 10-foot cable
 - Amplifier IP6
 - USB/AUX
 - 1 Amp USB port
- 1114875

velex MARINE RADIO SET DAB+/FM WITH 2 SPEAKERS

A very good quality stereo package from VELEX.
Two 6.5" speakers are included.

- Bluetooth
- DAB+/FM
- 4x45W
- IPX5
- USB/Aux, Motorola and Phono Out
- Ø 89 mm
- FM antenna for external mounting included

NB! DAB+ antenna is not included in the set.
1114876

PROMARINE BLUETOOTH SPEAKER

2-way bluetooth speaker starter kit w/amplifier 6.5"

12V for speakers that can be connected to a phone or other playback device via Bluetooth. There is a master speaker and a slave speaker in the set, and you can connect as many slave speakers as you want, they just have to be within 30 meters of the master unit.

Masters

- 150W
- 20W amplifier in the speakers
- IPX5
- Low magnetism
- UV protected
- Installation depth: 79 mm
- Diameter: 175 mm
- Hole dimensions: 158 mm
- Range to play source max 20 m
- Range between master and slave max 30 m

Black 1114866

White 1114867

Extra slave set 6.5" 150W

For those who want more than 2 speakers

White 1114868

Black 1114869

1852 INVERTERS WITH MODIFIED SINE CURVE

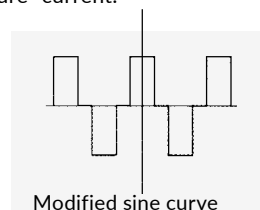

The inverters convert 12 V to 220 V 50 Hz with effects from 150 W to 1000 W. Inverters with a modified sine curve are ideal for connecting TVs, mobile phone chargers, small kitchen appliances, tools, etc. Always pay close attention to the power (W) stated on the appliance you want to connect the inverter to before connecting it.

ATTENTION Many consumables use 3-4 times more power at the start moment!

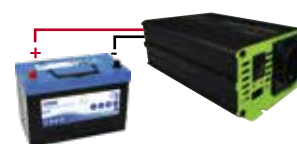

The inverters with a modified sine curve have **SOFTSTART**, which means that it can withstand the large starting consumption, so you can choose your inverter according to the power that is written on the item of use, and not 3-4 times more powerful.

Modified sine curve: Modified sine curve is an angular current curve, the current we know from our house is a "pure" current.

1852 INVERTERS WITH PURE SINE CURVE

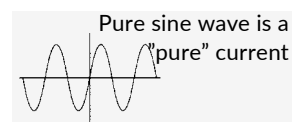

The inverters convert 12 V to 220 V 50 Hz with effects of 400 W and 1000 W. Pure sine wave inverters can be used for all electrical equipment. Always pay close attention to the power (W) stated on the appliance you want to connect the inverter to before connecting it.

ATTENTION Many consumables use 3-4 times more power at the start moment!

The inverters with a modified sine curve have **SOFTSTART**, which means that it can withstand the large starting consumption, so you can choose your inverter according to the power that is written on the item of use, and not 3-4 times more powerful.

PURE sine curve: is the same current that we have in our houses.

1852 TINNED COPPER CABLE

High temperature thin wall low voltage cables suitable for use in marine and other harsh environments.

The tinned copper conductors make this cable more corrosion resistant.

- Manufactured in accordance with ISO 6722-1: 2011 (Class B).
- Hard PVC insulation saves weight and provides good resistance to wear and can be cut through.
- Good resistance to petrol, diesel oil, lubricating oils and diluted acid.
- Suitable for 12V and 24V systems (max. 60V).
- Insulated copper conductors, PVC insulated.
- Suitable for use at temperatures from -40°C to 105°C.
- Very good resistance to moisture.
- The cables are printed with the specification on the insulation.

Side bracket set can be purchased additionally. Provides a more flexible installation

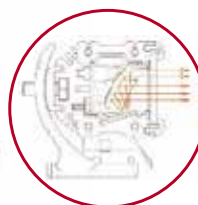

UV coated reflector and polycarbonate lens with high durability

Innovative optics design. Reflector with cover to provide indirect light

Protected reflector and LED are machined with high precision, improving the LUX value by more than 50%

Indirect light system prevents glare

Heated lens, which prevents icing in cold weather.

1852 FOR DIVER UTILITY SPOTS

1852 spot models are of high quality, intended for the maritime environment with different brightnesses and in a very robust IP67 waterproof housing made of ABS and thermoplastic rubber, which makes them resistant to shocks and vibrations and with a drop test of 1 meter.

- IP 67 waterproof
- Drop test: 1 meter
- Non-slip handle

- Brightness Lumen 300 - 370M/237M
 - 1 piece. Cree XPGB R5 super bright 3W LED
 - Uses 3 pcs. C/LR14 batteries (not included)
 - Usage: 21 hours/29 hours
 - Trigger switch: high/low/off brightness
 - Diameter 8 cm, weight 900 g
- 1240371**

- Brightness Lumen 500 - 400M/280M
 - 1 piece. Cree XMLB-T6 super bright 5W LED
 - Including 1 pc. rechargeable Lithium 18650 battery (3.7V 3000mAH)
 - Including 100-240V charger and 12 Vdc charger with cigarette plug.
 - Charging time 6-8 hours.
 - Use: 9 hours/20 hours/SOS 24 HOURS
 - Trigger switch: high/low/SOS/off brightness
 - Diameter 9 cm, weight 900 g
- 1240372**

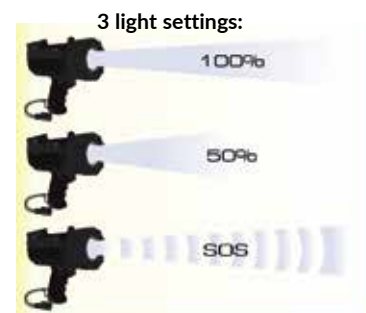

LED SPOTS

A smart LED Spot/diving light with a robust housing that floats, is waterproof. Recharged via the supplied USB plug which can be smartly stored behind the end cover.

- 3 light settings: 100%, 50% or SOS
- IP67 - floating
- Adjustable stand on top of the housing for hands-free lighting
- The housing is made of ABS and polycarbonate

- 10W XPL 500 lumens
 Battery: 18650 lithium (2200MA)
 Charging: 3 hours
 Usage time: 2.5 hours
 Size: 15.5 x 8 x 18 cm - 354 grams
- 1240374**

- 18W XHP 50 1300 lumens
 Battery: 18650 lithium (4400MA)
 Charging: 4-5 hours
 Usage time: 4.5 hours
 Size: 17 x 9 x 18.5 cm - 600 grams
 5V input & output
- 1240375**

1852 FOR DIVER UTILITY WATERPROOF LED FLASHLIGHT

Compact flashlight with impressive lumen strength, light distance and operating time. CREE high-intensity LED and polycarbonate lens resist vibrations, even drops up to 3 meters without damage. Strong housing made of reinforced nylon fiber with a soft surface, so it is comfortable to hold.

- 1 piece. 3W Cree super powerful LED
 - Brightness: 140 lumens - 120 meters
 - Duration of use: 3 hours
 - 3 x AAA batteries (not included)
 - High/low and flashing brightness
 - IP 67 waterproof
 - Wrist strap
 - Size: 13 cm Dia 30/35mm
- 1171045**

1852 FROST GUARD 220V/200W W/THERMOSTAT

The frost guard is suitable for keeping the boat, garage, attic or similar free from frost. Mounted vertically on the wall. Can be used in both dry and damp rooms.

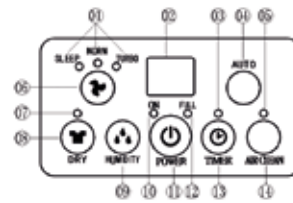

Stepless thermostat +5 to +35° C
L x W x H: 350 x 120 x 75 mm
1102130

1852 DEHUMIDIFIER FOR LOW TEMP., 230V W/5 L TANK

Dehumidifier for boat, caravan, cottage, basement etc. Dehumidifier with absorption technology, i.e. dryer rotor and no compressor therefore perfect for cold and wet rooms. Simple to operate.

- TÜV and CE approved.
 - Tank 5 litres
 - Spout 12mm for direct draining of water
 - 8.5L per day
 - Power consumption: High speed 720W/3.2Amp
Medium speed 710W/3.1Amp
Low speed 380W/1.7Amp
 - Noise level: 39/44/48db
 - Air flow 185 m3/hour
 - Electronic hygrostat with the following levels: 40%/50%/60%/70% RH and continuous
 - Antibacterial filter
 - Operating temperature: 1-32° C
 - Anti-tip protection
 - Hours: 1-24 hours
 - Dimensions: 340 x 221 x 509 mm
 - Weight: 7.5 kg
 - 230V
- 1100000

1852 HEATER PIPE 220 VOLT CE

Heating pipes are effective against frost and condensation in the boat. They use extremely little power.

Is perfect to use for winter storage, but also provides a pleasant warmth and is far more energy efficient if used as a normal heat source. The heating pipes are equipped with a safety sensor that automatically switches off the heating pipe if a fault occurs or if the heat exceeds the normal temperature. Supplied with 220V cord and mounting clip.

305 mm 45 watt heating pipe IP 55	1102150
610 mm 80 watt heating pipe IP 55	1102152
915 mm 135 watt heating pipe IP 55	1102154

IMPORTANT
Read the instructions
before installation!

Energy efficient
heat source

1852 CABLE LUGS

1852 tube cable lugs are made of 100 percent heavy tinned copper, which provides very good connection/flow of current resists corrosion from salt and moisture. Seamless barrel design provides maximum strength when crimped. The cable lugs have a closed end, which keeps moisture out, so cables remain dry and corrosion-free.

The key can be removed
3 side plates can be removed for cable installation
68 x 68 x 75 mm
1271082

1852 FENDER COVER

1852 fender cover is made of thick stretch terry, which protects your fender and boat. When the fender rubs against the boat, it can make an annoying creaking sound, which can be avoided by using a fender cover. The fender cover also protects the fender from the sun's UV rays. Available in grey, navy and black
Lace closure at one end
80% acrylic 20% polyester
Can be washed

1852 DUAL ACTION ELECTRIC POLISHING MACHINE C€

The ideal polishing machine for the boat, the car etc.

- Oscillating rotation
- 900W
- Adjustable speed 2000 - 6400 revolutions
- Comes with handle, back plate w/velcro and bag
- 2.6 kg
- Ø 150 mm
- C€ approved

Back plate for dual action
8 mm / 5/8" Ø 135 mm
1602135

1852 ELECTRIC POLISHING MACHINE - SMALL AND LIGHT C€

A small and light polishing machine for the perfect polishing job.

Weights only 2 kg and is therefore somewhat more comfortable to perform the polishing work with.

- Stepless speed regulation 0-4300 rpm. Approx. Step 4 is perfect for the polishing task.
- 920W 230V
- Includes Ø 180 mm back plate with velcro
- Standard M14 mm thread
- Supplied with handle
- ONLY 2 kg.
- REMEMBER polishing pads (not included)
- C€ approved

1852 OIL EXTRACTOR 9 LITRES

Oil suction with hand pump incl. 3 hoses of dia 4, 6 and 10 mm,
all 110 cm long.

Cylinder model 9 litres 1201743

Hose connection

**1852 OIL EXTRACTOR 6 LITRES**

Oil suction round model 6 litres
1201741

1852 MARINE TANK C €

Fuel tank with hose set for Yamaha.
 Very solid petrol tanks produced in heavy duty polyethylene.
 The tanks are supplied with a fuel gauge, 3 meter fuel hose with pump and Yamaha fuel couplings.
 (Fuel hose: 2.05 m before pump and 0.85 m after pump)
 Change any the motor connector to match your motor,
 12 L. 1530006
 24 L. 1530007

1852 FUEL CADDY 53 LITERS C €

Fuel wagon of 53 liters with wheels and siphon pump/gun
 Quality tank in polyethylene, CE approved

- No corroding parts
- Strong - can withstand impact
- Mounted with 3 m hose
- For petrol and diesel

1530148

1852 PLASTIC FUEL CAN INCL. POURING SPOUT

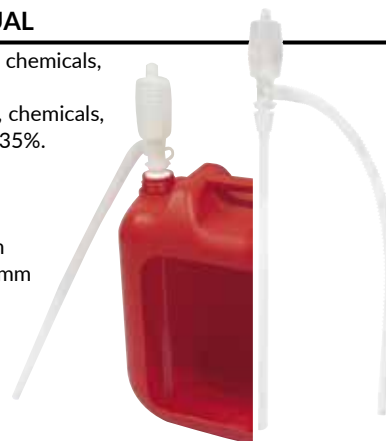

Has a clear strip at the end so you can see how much is left.
 5 L 1530374
 10 L 1530375
 20 L 1530376

SIPHON PUMP - MANUAL

Siphon with manual pump for chemicals, thinners and acids.
 Can be used for petrol, diesel, chemicals, soap, thinner and acids up to 35%.
 Pumps 7 liters per mine.

Total length: 530 mm
 Lgd. on suction hose: 385 mm
 Lgd. on extraction hose: 540 mm
 1531101

SIPHON PUMP BATTERY POWERED W/AUTOSTOP SENSOR

Battery-powered pump with autostop sensor.
 Can be used for petrol, diesel, kerosene, light oils and water.
 Pumps 9 liters per min and uses 2 D batteries.
 Batteries are purchased separately
 Total length: 592 mm
 Length of suction hose: 385 mm
 Length of extraction hose: 560 mm
 1531103

SIPHON PUMP - BATTERY OPERATED W/AUTOSTOP

Battery-operated pump with autostop.
 Live. with adapters for mounting on different cans.
 Used for petrol, diesel, kerosene, light oils and water.
 Pumps 9 liters per min and uses 4 AA batteries.

Total length: 535 mm
 Length of suction hose: 460 mm
 Length of extraction hose: 715 mm
 1531104

1852 FOR BOATS **BOAT COVER**

1852 high quality boat cover. Made from 300 denier gray polyester which is water resistant and comes with trailer straps. The Cover protects against rain, dirt and dust. Available in 8 models, of which the 2 smallest are for inflatable boats and smaller dinghies. In addition, there are 3 models for Center Console boats.

- 300 Denier Polyester
- Reinforced bow, stern & eyes
- Trailer straps Included
- Storage bag included

8 models:

Model	Size	Fot	Max width	Item no

NEW

1852 PROFLEX BOAT-SHAPED AND RECTANGULAR COVERS

A cover protects against wind and weather. But it must be able to do much more. It must also be able to be used again and again. And then it must be easy to work with. 1852 boat shaped tarps provide a better fit and less excess tarp. The cover is sewn to form at one end, so that any excess material against the bow is minimized.

- 240 g./m2 reinforced plastic in top quality - the best protection for the boat in all kinds of weather!
- Long service life - withstands frost and sun without cracking. From -40° to 80°C.
- High UV protection - protects against sunlight.
- Environmentally friendly and economical - made from environmentally friendly HDLD polyethylene (high density polyethylene), which can be reused and does not pollute when burned.
- There are pre-punched holes (Dia 15 mm) every 10 cm, the holes are welded for good durability.

Cloth type: 100% polyethylene HDPE leno material, LDPE coating (high density polyethylene tablecloth with low density polyethylene coating)

Fabric weight: 220 g/m2

Cover weight: 230-250 g/m2

Tensile strength: 580 N/5 cm in the longitudinal direction = 59 kg.
440 N/5 cm in the width direction = 45 kg.

Temp. resistant: -40/+80°C

UV resistant: 200 Kly

Size: Finished size, +/- 2%

Finishing: Eye tape in the longitudinal direction.

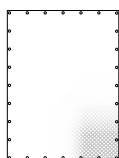

Eyelet: 250 g/m2 with Ø 15 mm eyelets every 10 cm

Eye tensile strength: 580 N = 59 kg.

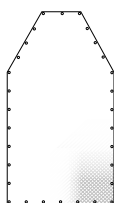

RECTANGULAR COVER

Size	Item no
3 x 4 meter	1041702
4 x 6 meter	1041708
5 x 7 meter	1041710
6 x 10 meter	1041712
8 x 12 meter	1041711

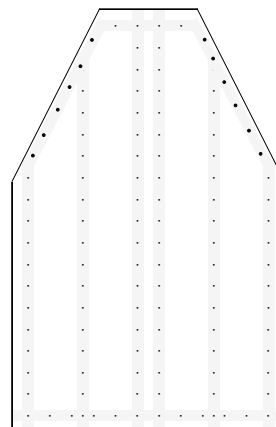

SHAPED COVER

Size	Item no
5 x 7 meter	1041693
5 x 10 meter	1041694
6 x 10 meter	1041697
6 x 12 meter	1041699
7 x 12 meter	10416991
8 x 14 meter	1041701

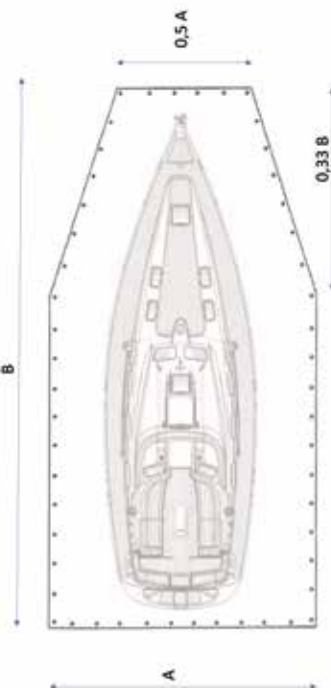

THE ADVANTAGES OF THE 1852 COVER:

- Flexible attachment - pre-punched holes/eyes every 10 cm
- No metal eyes = no scratches in gelcoat
- High tensile strength

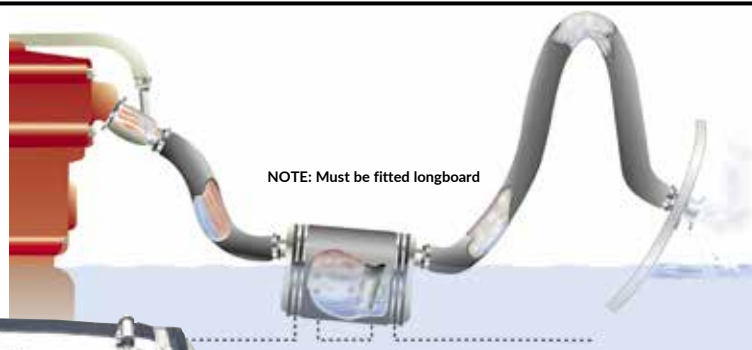

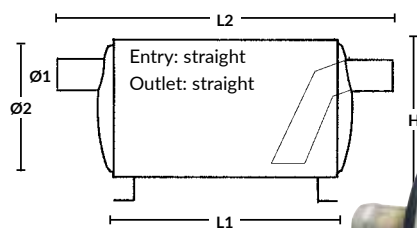

Punched-out eyelets on large parts of the cover make fastening much easier

The boat-shaped covers are tapered after 2/3 of the total length. The narrow short side is half as long as the width of the cover.

Thor EXHAUST SILENCER

Thor exhaust silencer are among the best on the market. The system can be used on both sailing and motor boats. The muffler/water trap on the Thor model is constructed with 2 stainless steel ends fitted with a rubber bellows.

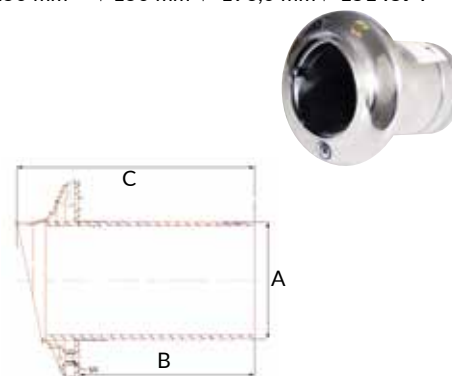

1852 EXHAUST PIPES

Beautiful fully cast stainless steel, AISI 316, through for exhaust. High gloss polished w/plastic counter flap.

INFO WAKEWATER

SIMPLE CIRCUIT COOLING

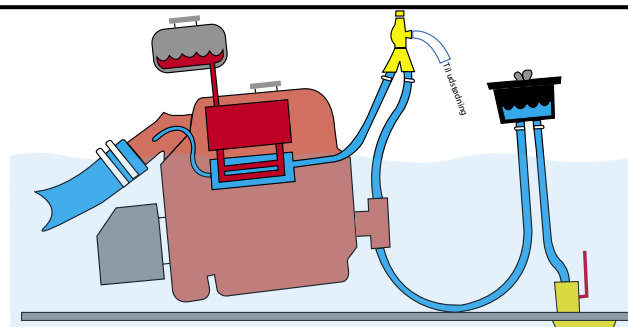

Cool facts about how to avoid an anti-siphon that leaks in the engine room or how to prevent clogging in the cooling system.

The cooling water intake is the first connection that can release particles from the cooling water. It is therefore important that a strainer is fitted on the outside which does not allow larger particles to pass through the hose. For safety reasons, the feed-through should be fitted with a tap that can shut off the water in the event of an accident, repair etc.

Note that the cooling water strainer has an inlet and an outlet that must be connected correctly. The strainer must be checked for dirt and be cleaned where it is mounted, and must fit tightly in the lid. It is important that the strainer is placed approx. 0.5 meters above the waterline and that the hoses are of a good quality that do not "collapse" in a hot engine room and prevent water from passing through.

The strainer's outlet is connected to the pump's inlet connection, and via the pump's outlet connection to the anti-lift siphon, which must be located at roughly the same height as the strainer.

The anti-lift siphon has no specific flow direction. It breaks the water flow and thus the siphon effect when the engine is stopped. The outlet of the siphon is connected to the motor and the circuit is closed. The anti siphon is connected to the spigot on the silencer. If there is no spigot on the muffler, you can mount a connecting pipe on the exhaust hose after the engine exhaust silencer as close to the muffler as possible.

DOUBLE CIRCUIT COOLING

Thor ANTI-LIFT SIPHON

Powerful anti-siphon.

Fits 16-19-25-32 mm hoses.

Can be connected to exhaust if one want a closed installation.

Dimensions: H: 163 - W: 85 - D: 37 mm

Stud Ø 8 mm

16-19-25-32 mm **1560692**

Thor QUICK-FIT SEA STRAINER

Luxury strainer for the discerning sailor. The strainer is mounted on the practical QUICK-FIT hanger, which makes it easy to mount and quick to clean. Extra strong walls provide great stability, and the large strainer provides extra flow.

TEAK TABLETOPS

Thai teak wood and genuine craftsmanship are an unrivaled combination. For centuries, teak wood has proven to be unsurpassed for outdoor use. The natural oils preserve the wood against weather and wind for years. Teak wood is also resistant to insects and fungi. Each part is machined and sanded before assembly. The furniture is put together by hand and fit and craftsmanship are carefully coordinated. Finally, the surface is polished to a silky matte finish.

The teak table tops have plywood cores. 22 mm thick, of which 5 mm teak.

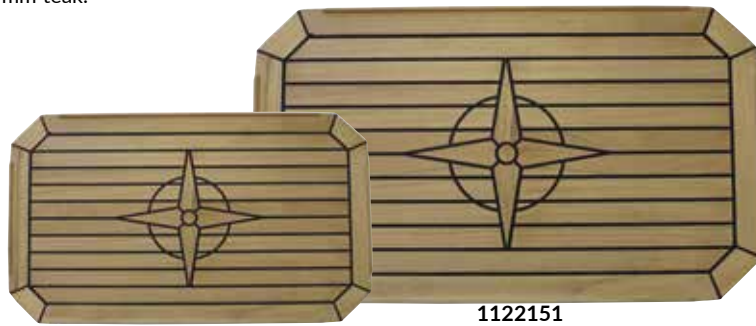

FSC-approved teak wood

The joint is made with SIKA-flex.

MENSA HEATING NATE'S PILLOW WITH HEAT

The cushion that keeps you warm when you are in good company on your boat in the harbor - or during a longer sailing trip on the open sea.

You can take NATES with you everywhere and keep warm in all kinds of weather.

NATES has three heat levels, as you know them from the seat heater in your car.

The cushion keeps heat from 3-6 hours, depending on which setting/level of heat you use.

Comes with water-resistant fabric, waterproof zipper and a 10,000 mAh power bank inside the cushion.

Size 40 x 40 x 5 cm

1121435

• ON/OFF

Press for 2 sec. for ON or OFF.

A single press changes the heat level:

Red = high (9.5W)

Orange = medium (7W)

Green = low (5W)

• Heating element

Surface temperature:

Max. 40°C at highest level

Warm-up: <1 min.

• Handle / shoulder strap

Handle can be unbuttoned so it becomes a shoulder strap

Extra powerbank
10.000mAh for

WATERSKI COMBO VEGA ADULT & JUNIOR

Classic combi skis that suit both the family, the all-round water skier but also the discerning water skier.
They are easy to get on, and have a narrow enough profile to be easy to maneuver in the turns.
Concave underside (curves downwards) for best grip on the water surface.
Adjustable bindings from size 37 to 46.

Red/orange 170 cm 1191006
Blue/yellow 145 cm junior 1191010

1852 INFLATABLE SUP BOARDS JUNIOR & ADULT

Fantastic boards that can be used by both beginners and the experienced.

As the name suggests, the 2 Allround boards can be used for everything, but if you want to be challenged a bit, then you should try the Touring board, on which you can progress a little faster.

The touring board is a double layer board, which makes it stiffer and more stable.

- Versatile SUP boards - easy to maneuver with 1 removable center fin and 2 side fins
- Ultra stable
- Strong and durable
- For users of all levels - beginners as well as experienced
- Fully inflated in 5-10 min. (15 PSI max).
- Portable - easily rolled up and placed in the included backpack.
- Contains: SUP, bag, an adjustable aluminum paddle 165-215 cm, rep. set and a hand pump with manometer.

Model	Str.	Volume	Max carrying	Weight	Item no
